

Richmond United Soccer Club: Coaching Opportunities

Richmond United Soccer Club (RUSC) is looking for passionate, committed coaches across all levels of experience and qualification to join us on our continued journey to provide an exceptional youth soccer experience.

The model that we are building and working to implement is aligned with leading international best practice and Canada Soccer's philosophy on maximizing player enjoyment and development.

We deliver programming across all ages and levels (up to and including Metro/Division 1) and have consistently supported and promoted players to the highest levels of the game.

We're looking for coaches who:

- Believe and live by the mantra that coaching is more than just a job. You're passionate about delivering the best possible experience for all young people/players and fostering a life-long love of the game.
- Are committed to being the best they can be. You want to continually improve, grow and develop as a coach and give your best to and for every player
- Align with our philosophy that:
 - First and foremost, youth soccer must be enjoyable
 - The game is best learned and experienced in dynamic activities that foster technical and tactical growth through decision making and problem solving in variable environments
 - Conditioned small sided games provide a highly enjoyable and productive learning environment
 - Line 'drills' with limited decisions and variability are rarely the most appropriate (and certainly not the most enjoyable)
 - Connection is critical. Building relationships with and understanding each individual player builds a more enjoyable and productive environment

Why coach at RUSC?

- Competitive pay based on experience, qualifications and, most importantly, quality and commitment to grow, improve and support the implementation of our philosophy
- Gain significant experience coaching in an environment that is working to align with global best practice (developing skills and an approach that make you highly desirable in the best environments)
- Internal coach development, feedback and opportunities to continually grow as a coach

- Support (financial and developmental) to complete coaching certifications
- Opportunities to grow and develop as a coach educator – supporting staff and volunteer coaches across the club to continually develop
- Opportunities to benefit from our extensive local (and not so local) coaching network in pursuit of career advancement and variety of experience
- An inclusive, friendly, fun and supportive working environment
