Subject	BC Soccer launches new corporate Website

BC Soccer releases new corporate website featuring an updated layout and search functionality to improve user experience

Following several months of development, BC Soccer is pleased to unveil its new corporate website bringing a refreshed appearance, better interface across all devices and a more intuitive search functionality. The scope of this project was comprehensive, given the wide spectrum of stakeholders, including Full-Active Members, Associate Members, Affiliated Clubs, corporate partners, and of course all participants, the public, and the wider soccer community.

The new site was built using Umbraco, the same platform utilized in the [BC Soccer Hall of Fame & Heritage](#) site launched in 2019. The new website allows for a more user-friendly experience and better search capabilities both from a site-wide global function, but more importantly, a documents and forms capability. All forms and documentation should be found quickly using the search tool at the bottom of each page (the yellow bar.)

In our work to support members and the game, our organization produces multiple documents, guidelines, forms, and templates and being able to access these easily by those that need them, we feel is critically important.

BC Soccer would like to thank and acknowledge Still Creek Communications, and specifically Miranda Fach, Kammy Beattie, and Alan Spiers for their hard work and guidance throughout this project, and internally Peter Schaad our Marketing and Communications Senior Coordinator who lead this important initiative.

The new website can be accessed at www.bcsoccer.net

For further information, please contact [Peter Schaad, Sr. Coordinator of Marketing and Communications](#).
